

The Safeguarding of Drinking Water Supply – Challenge for the Danube Region

International Conference

16–17 December 2013
Sorea Regia Hotel, Bratislava

16 DECEMBER 2013

Drinking Water in the Light of European Legislation

- 13:30 – 14:00 M. Karácsonyová et al., Water Research Institute, Bratislava: Drinking water legislation and water supply system risk management
- 14:00 – 14:30 K. Munka et al., Water Research Institute, Bratislava: Example of using the tool related to the drinking water safety plans – SKV Hriňová–Lučenec– Fil’akovo
- 14:30 – 15:00 M. Balázs, National Health Institute: The implementation of the Council Directive 98/83/EC in Hungary

European Strategy for the Danube Region in the Sphere of Water Quality

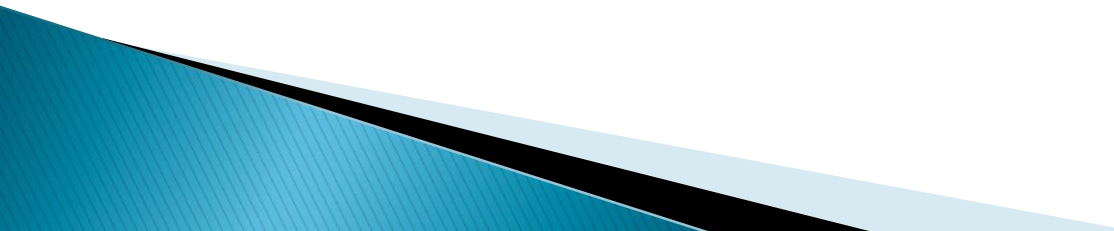

- 15:30 – 16:00 A. Vranovská, Water Research Institute, Bratislava: Activities of priority area 4 EUSDR in the sphere of water quality
- 16:00 – 16:30 O. Szabó, National Institute for Environment: Waste water treatment on the Danube
- 16:30 – 17:00 P. Weller, IAWD: Smart policies, strong utilities, sustainable water services: the Danube water program

Progressive Analytic Methods in the Microbiology of Drinking Water

- 17:00 – 17:30 M. Prokšová, M. Cíhová, L. Kijovská, Water Research Institute, Bratislava: Using new progressive methods in drinking water analytics

17 DECEMBER 2013

Progressive Analytic Methods in the Microbiology of Drinking Water

- 09:20 – 09:40 M. Balázs, National Health Institute: **Detecting enteral viruses from water with real time PCR**
- 09:40 – 10:00 L. Üszögh, Miskolc Water Service: **Practical implementations and case studies in relation to the experiences of ultra- filter building**
- 10:00 – 10:20 L. Kijovská, Water Research Institute, Bratislava: **Using eco-toxicological methods for drinking water quality assessment**
- 10:20 – 10:40 E. Kurejová, V. Nagyová et al.: **Using chromatographic methods for monitoring of cyanotoxins contents in water and cyanobacteria water blooms**
- 

17 DECEMBER 2013

Drinking Water Quality in the Danube Region

- 11:30 – 11:50 M. Slovinská et al., Water Research Institute, Bratislava: **Drinking water quality in Slovakia**
- 11:50 – 12:10 M. Balázs, National Health Institute: **The drinking water situation of Hungary**
- 12:10 – 12:30 L. Üszögh, Miskolc Water Service: **Experiences from the drinking water supply situation in Northern Hungary.**
- 12:30 – 12:50 M. Libovič, Bratislava Water Supply Company: **Safety monitoring system of drinking water at water resources for Bratislava city**
- 13:30 – 13:50 H. Siegel, M. Mader: **CC-WARE project – Integrated transnational strategy for water protection and mitigating water resources vulnerability**
- 13:50 – 14:10 K. Tóthová, Slovak University of Technology, Bratislava: **Mathematical model of water supply system and its usage**
- 14:10 – 14:30 M. Valúchová et al., Slovak Water Management Enterprise: **Surface water quality in the Slovak Republic**
- 14:30 – 14:50 A. Luptáková et al., Slovak Hydro–Meteorological Institute: **Groundwater quality in the Slovak Republic**
- 14:50 – 15:10 Y. Velísková et al., Hydrology Institute, Slovak Academy of Science: **Interaction of surface water and groundwater in the Danube flatland**
