

# Verification of the quality of materials that come into contact with water intended for human consumption in Slovakia

Overovanie kvality materiálov, ktoré prichádzajú do styku  
s pitnou vodou v SR

Milada Syčová  
RÚVZ so sídlom v Poprade  
International workshop  
*Securing Drinking Water Supply*  
*Session 4: Best practice examples*  
22 November 2023

# Materials that come into contact with water intended for human consumption (DWM)

The nature of materials that come into contact with water intended for human consumption can have an impact on the quality of such water through the migration of potentially harmful substances, by enhancing microbial growth or by influencing the odour, colour or taste of such water

an underestimated source of contamination

Different types of materials (included starting substances (monomers, additives (IAS) and NIAS... )

Quality of water intended for human consumption

# Materials that come into contact with water intended for human consumption (DWM)

2007

Act no. 355/2007 Coll. on the protection, support and development of public health (basic requirements for DWM)

2023

Amendment of Act no. 355/2007 Coll. on the protection, support and development of public health (basic requirements for DWM - transposition)

**NEW**

Directive 2020/2184 (EU) of the European Parliament and of the Council on the quality of water intended for human consumption

Decree of Ministry of Health of the Slovak Republic no. 550/2007 Coll. on details of requirements for products intended for contact with drinking water

# Materials that come into contact with water intended for human consumption (DWM)

2023

Materials and products, which are intended for use in new devices, during repair or reconstruction in facilities used for the collection, treatment, accumulation or distribution of drinking water, and which come into contact with drinking water, are dangerous to health if :

- a) directly or indirectly endanger human health,
- b) do not adversely affect the color, smell, taste of drinking water,
- c) do not support microbial growth
- d) do not release soot in their drinking water contaminants to a greater extent than the intended purpose use necessary.

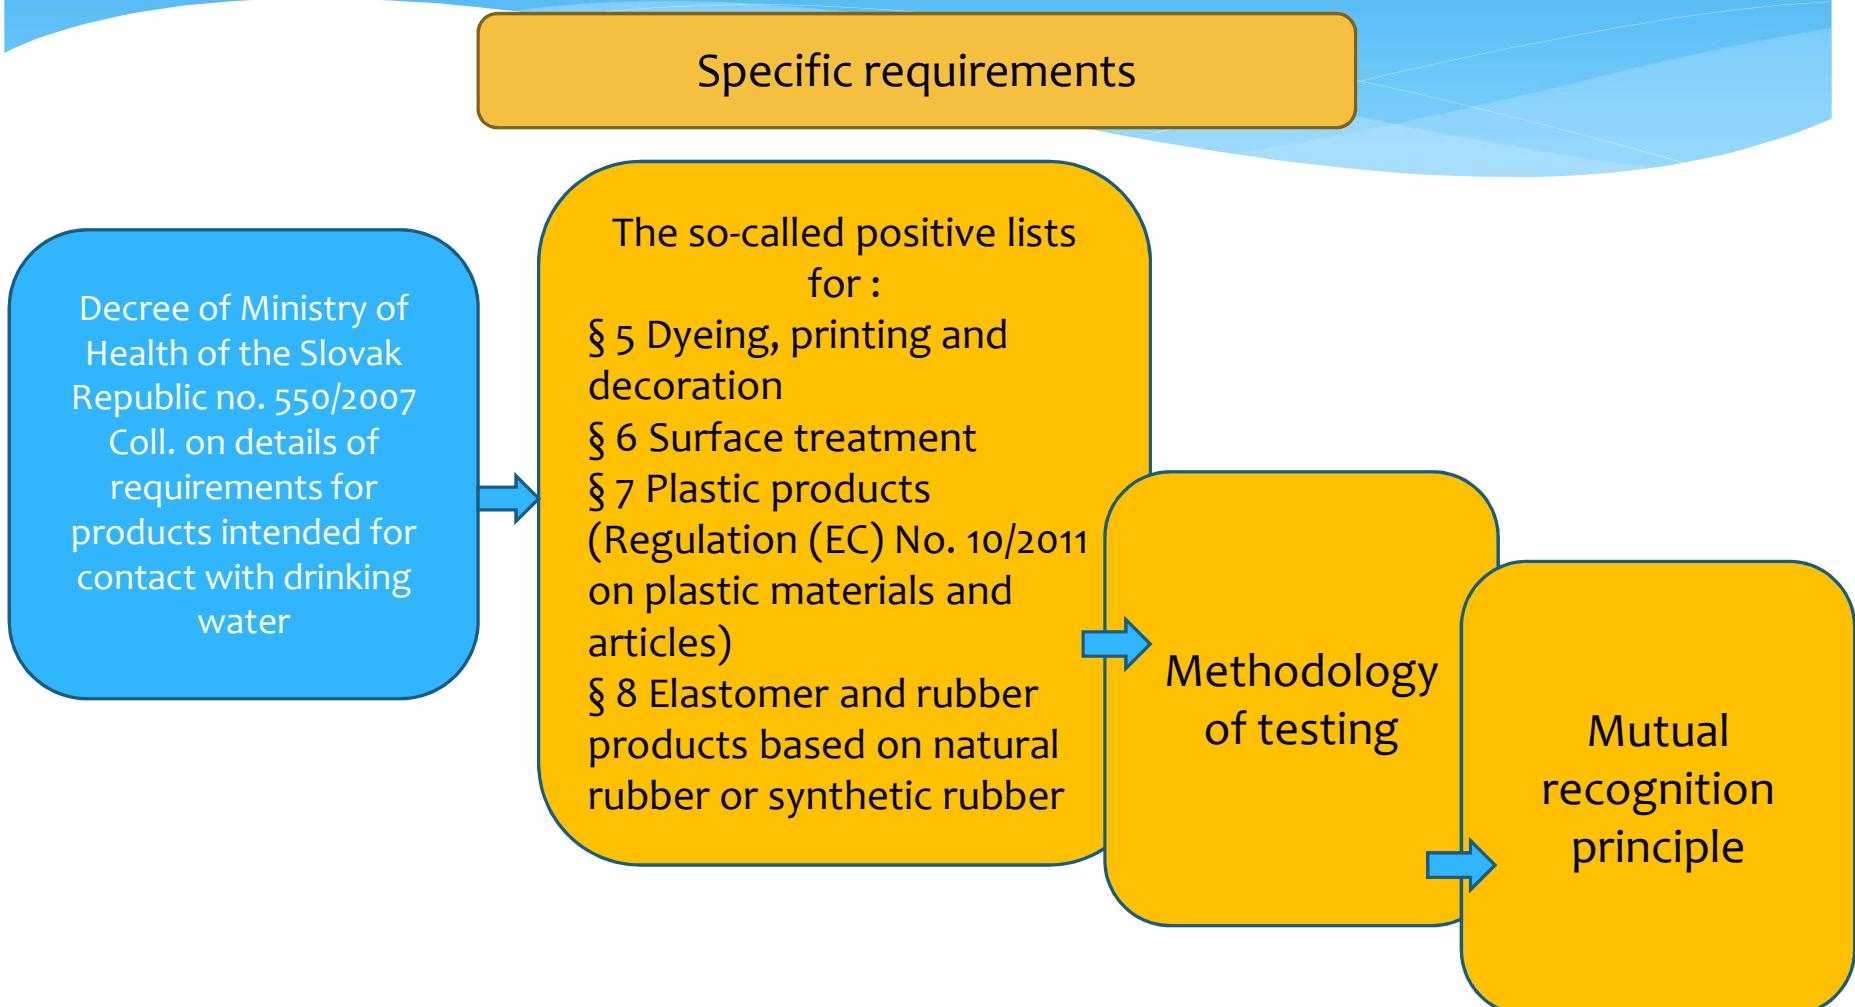

Frame law – general requirements

Amendment of Act no. 355/2007  
Coll. on the protection, support  
and development of public health  
(basic requirements for DWM)

obligation

A natural person or a legal entity that placing materials or products intended for contact with drinking water on the market, is obliged to ensure compliance with health requirements of safety for materials and products intended for contact with drinking water according to the specific law (decree)

# Materials that come into contact with water intended for human consumption (DWM)

# Introduction

REGIONÁLNY  
ÚRAD VEREJNÉHO  
ZDRAVOTNÍCTVA  
SO SÍDLOM V POPRADE

FCM – Food Contact Materials

NRC (1998) and NRL (2007) for FCM  
Scope: legislation, organisation of official control, testing of FCM, trainings...

Public Health Authority in Bratislava  
Regional Public Health Authorities (36)

DWM – fixed public or private water supply equipment

Since 2007 under the umbrella of NRC for FCM

07/02/2023  
National reference centre for materials, products, filter media intended for contact with drinking water and water treatment chemicals

# Introduction – legal basis

REGIONÁLNY  
ÚRAD VEREJNÉHO  
ZDRAVOTNÍCTVA  
SO SÍDLOM V POPRADE

## FCM – Food Contact Materials

17 types of  
materials  
(combination)

- Regulation EC No 1935/2004
- Specific directives/regulation (10/2011 - plastic, 2018/321 – restriction of BPA, ceramics, regenerated cellulose, active and intelligent materials..

## Food Code (non-harmonised FCM)

## DWM – fixed public or private water supply equipment

- Act no. 355/2007 Coll. on the protection, support and development of public health (basic requirements for DWM)
- Decree edict no 550/2007 (requirements for material composition and testing)

Public Health Authority in Bratislava  
Regional Public Health Authorities (36)

# Project: Verification of the quality of drinking water materials in Slovakia 2019 - 2021

## \* Aim:

- \* assessment of the situation in the area of DWM (criteria for safety)  
\* collected information used as a starting point for re-evaluation of national legislation

## \* Timetable: 2019 – 2021

## \* Outputs:

- \*collected information used as a starting point for re-evaluation of national legislation:
  - a) on general level – requirements for production and placing on the market
  - b) on specific law – detailed requirements for material composition (positive list), testing scheme..
  - c) instructions for the performance of state health supervision in the area of products intended for contact with drinking water.

## Project stages 2019 – 2021

### 1st Stage - Guideline

2019

Preparation of guideline for inspectors  
(36 Public Health Authorities)

### 2nd Stage – Practical implementation of the project

2020 – 2021

Construction approvals: require the submission of documentation for products intended for contact with drinking water and data on the products and record the submitted documentation.

### 3rd Stage – Assessment

2021

Processing of collected data and suggestions for further solutions.

## Detailed guideline

Príloha 1

### **OVERENIE KVALITY MATERIÁLOV, KTORÉ PRICHÁDZAJÚ DO STYKU S PITNOU VODOU - Usmernenie k projektu úradov verejného zdravotníctva v SR na rok 2019 a ďalšie roky (Projekt č. 1.8; od 1.1.2020 Projekt č. 1.4.)**

#### **Ciel:**

- vytvorenie prehľadu o výrobkoch, ktoré sa na Slovensku používajú ako výrobky určené pre styk s pitnou vodou a o dokladoch, ktorými je preukazovaná ich vhodnosť pre styk s pitnou vodou,
- posúdenie celkovej situácie na trhu v oblasti výrobkov určených na styk s pitnou vodu v nadväznosti na zozbierané informácie,
- získanie podkladov pre prijatie účinných opatrení a riešení do budúcnosti napr.:
  - a) prípravu legislatívy v oblasti výrobkov prichádzajúcich do kontaktu s pitnou vodou v rámci Európskej únie,
  - b) novelu vyhlášky Ministerstva zdravotníctva Slovenskej republiky č. 550/2007 Z. z. o podrobnostiach o požiadavkách na výrobky určené na styk s pitnou vodou,
  - c) pokyny pre výkon štátneho zdravotného dozoru v oblasti výrobkov určených pre styk s pitnou vodou

## Detailed guideline

### A) CURRENT LEGAL STATUS / SÚČASNÝ LEGISLATÍVNY STATUS

### B) PRACTICAL IMPLEMENTATION / PRAKTIČKÁ IMPLIMENTÁCIA

#### Examples:

- Posudok o zdravotnej bezpečnosti výrobkov (materiálov a predmetov) určených na styk s pitnou vodou vydaný NRC pri RÚVZ Poprad.
- Posudok TSÚ Piešťany alebo iného technického skúšobného ústavu (slovenského alebo českého), ktorý je oprávnený technicky osvedčovať stavené výrobky.
- Dokumentácia kompetentných úradov iných členských štátov podľa národných predpisov ako napr.:
  - Posudok podľa vyhlášky MZ ČR č. 409/2005 Sb. o hygienických požiadavkách na výrobky prichádzajúce do priameho styku s vodou a na úpravu vody (Česká republika).
  - Správa z materiálového testovania na obsah ľažkých kovov z nerezovej oceli, ŐVGW certifikáty (Rakúsko).
  - Certifikát sanitárnej zhody vydaný CARSO – Laboratoire Santé Environnement Hygiene De Lyon (Francúzsko).
  - DVGW- certifikát vydaný DVGW CERT GmbH (Nemecko).
  - Posúdenie podľa WRAS schémy (Water Regulations Advisory Scheme).

## Detailed guideline

Mutual recognition principle  
Health safety certificates/certificates recognized in the  
Slovak Republic from all EU countries, the European  
Free Trade Association and Turkey

The most important  
certification schemes

State	Certification schemes
Germany	DVGW
France	ACS
Netherlands	KIWA
United Kingdom	WRAS

# Results 2021

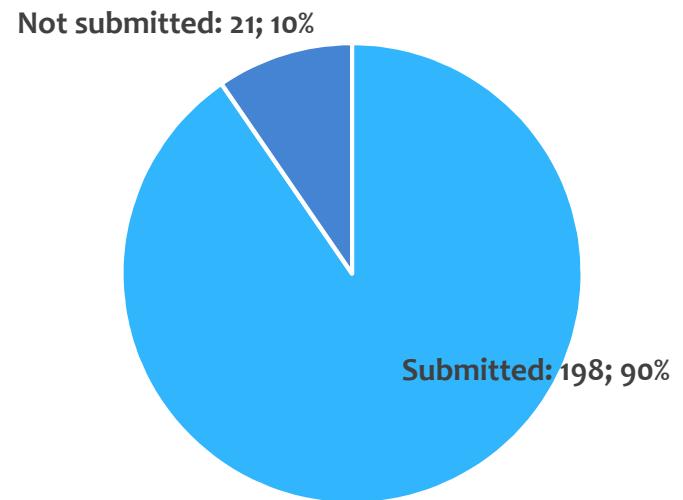

- \* 11 Public Health Authorities in Slovak republic:
  - \* Humenné, Rožňava, Veľký Krtíš, Čadca, Michalovce, Nové Zámky, Dolný Kubín, Stará Ľubovňa, Bratislava, Topoľčany, Žilina
- \* 108 building objects
  - \* multifunctional and residential buildings, kindergartens and schools, accommodation facilities, shopping centers, warehouses, stores, health centers, reconstruction and construction of water pipes and reservoirs, food factories, etc.
- \* 219 DWM
  - \* water supply systems and distribution, pipes, fittings and fittings, batteries, waterproofing, pumps, etc.
  - \* different types of materials: PP, PE, PVC, stainless steel, steel, brass, cast iron, ceramics, cast iron, galvanized materials, etc.

# Result 2021

Origin of DWM

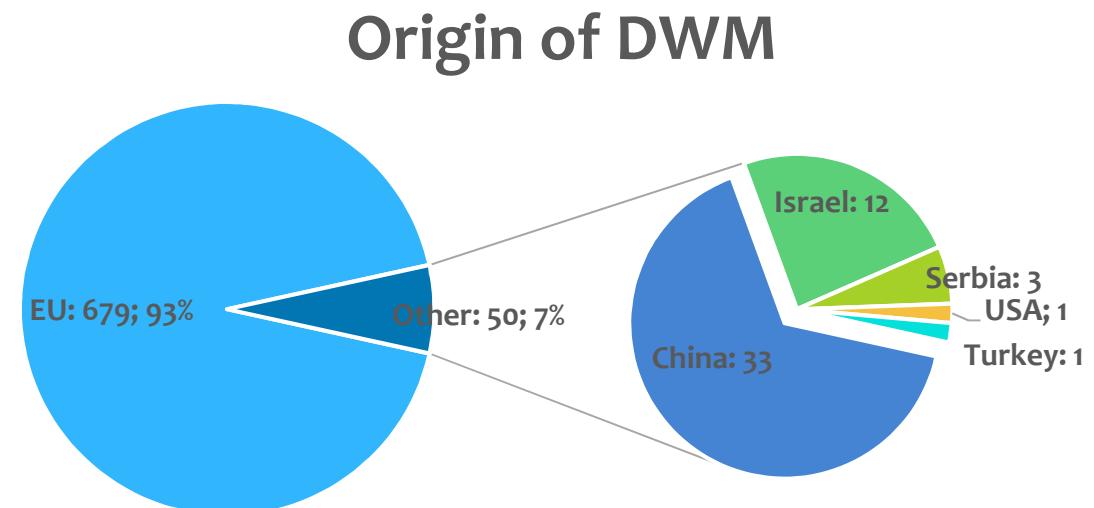

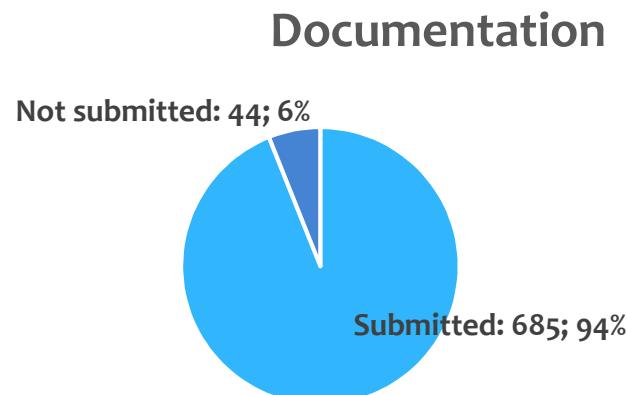

Documentation

# Findings

- \* Total : 21 Public Health Authorities in The Slovak republic
  - \* Humenné, Trenčín, Nitra, Trebišov, Topoľčany, Martin, Dolný Kubín, Stará Ľubovňa, Bratislava, Komárno, Poprad, Veľký Krtíš, Bardejov, Michalovce, Lučenec, Rožňava, Čadca, Michalovce, Nové Zámky, Topoľčany, Žilina
- \* Total building objects: 290
- \* Total: 729 DWM

## Conclusions - visions

- Conclusion  
the market situation in the area of products intended for contact with drinking water is favorable
- Re-evaluation of national legislation will follow..

## New challenges
